Most Innovative RFID Solution

Open to: RFID technology manufacturers and service providers

Note: RFID technology companies running for the Most Innovative RFID Solution Award must be the owner of the intellectual property rights in the RFID product submitted for the contest. This award category will be judged according to their level of innovation.

The winner of this award will be an RFID product or solution which is innovative, easy to deploy, cost effective, addresses market needs and complies with global RFID standards.

Judges will be looking for:

• Originality of design.
• Degree of innovation, originality and creativity demonstrated in use of RFID technology.
• Compliance with open or global RFID technology standards.
• Delivery of business value, including cost reduction, improved customer services, increased productivity, and process optimization.
• Effectiveness in addressing common business issues.
• Applicability of product or solution across different industries.
• Degree of improvement over similar products available on the market.
• Extensibility and scalability.

The nominees are:

1. Buzz Products: RFID enabled Q Bag Tag to streamline airport experience, increase customer satisfaction and loyalty and introduce ease and convenience
2. Hong Kong RFID: Smart Wristband RFID System to do visitor counting and Virtual Guide (Kiosk) Interaction
3. Identify Thailand: Automatic truck weighing system reducing manual entry of data, minimizing risk for data entry error or fraudulent data
4. LifeWAY: Patented inlays for quick, secure and hassle-free cashless payment experience
5. TCM RFID: SMRT RFID enabled warehouse
